**F**rom 31st May to 4th June the town of Koper will be waving the flag for gymnastics again. In the Bonifika Arena, the FIG World Challenge Cup will be held, organized for the 14th year in a row by the Slovenian Gymnastics Federation. Over 140 competitors from 29 countries will compete for medals, including many Olympic, World and European champions. Of course, the main attention will be given to Slovenian competitors who can use their performances to reach the highest places on individual apparatus.

The honorary patron of the FIG World Challenge Cup - the Municipality of Koper, welcomed us generously into its environment, into which both the organizers and participants of the competition are happy to return. ## Training and competition timetable

General training times are published in the previous section. Please keep in mind that only the finalists can use Competition Hall Arena Bonifika on Saturday and Sunday morning. Competition will be running according to the Rules for the FIG World Challenge Cup Series and the FIG Technical Regulations. All gymnasts have to start in qualifications to qualify for the finals. During the qualifications, the gymnasts will have a warm-up in groups of 4 or 5. The MAG and WAG competition will run simultaneously. Assistants at the judging tables will time the warm up. Each gymnast is entitled to 30 seconds of warm up, apart from parallel bars and uneven bars, where the available time is 50 seconds. The best 8 gymnasts from qualifications compete in the finals. The hostess will take every gymnast individually to the apparatus and after the exercise to the “kiss and

cry area”. The medal ceremony follows immediately after the last gymnast receives his/her score. Only the top 3 gymnasts will attend the awarding ceremony. Gymnasts have to participate at the awarding ceremony in their competition outfit.

The first part of the paper discusses the importance of understanding the cultural context of the research. It highlights the need for researchers to be sensitive to the values and beliefs of the communities they are studying. This is particularly important in the field of education, where cultural differences can significantly impact learning outcomes.

The second part of the paper focuses on the methodology used in the study. It describes the process of selecting participants, collecting data, and analyzing the results. The authors emphasize the importance of using a mixed-methods approach to capture both quantitative and qualitative data.

The third part of the paper presents the findings of the study. It discusses the results of the quantitative analysis, which showed a significant positive correlation between the independent and dependent variables. The authors also present the results of the qualitative analysis, which provided valuable insights into the experiences of the participants.

The final part of the paper discusses the implications of the findings for practice and policy. It suggests that the results of the study can be used to inform the development of culturally responsive educational programs and policies. The authors also discuss the limitations of the study and suggest areas for future research.
